

Tyrone Items

The Masonic lodge elected new officers this week Tuesday night.

The Royal Neighbors initiated a large class into their order last Saturday night. They held their meeting in the Masonic hall.

C. R. Murphy has one of the prettiest and neatest Christmas windows that is to be seen here. It makes one feel that some one will be made happy, if not everyone; it is a joy to look at it.

Mr. Collins, whose barber shop burned in the recent fire here, has opened up a shop in the Farmers' State bank, 2nd door south of the postoffice. We understand he contemplates building soon.

Before making your farm loan, see Griffith, at Griffith & Baughman's, for his attractive loan rates.

The Photoplay will be opened up soon in the Huber building east of the Observer office. Some of the knockers on the movie thought they had it their way when the Photoplay burned last week, but Tyrone will have a better one than before.

Charles Kleeberger and wife have rooms at Zack Cains' and will do light housekeeping for a while.

Mrs. Davis of Guymon, who is solicitor for the Royal Neighbors, has been here in Tyrone for a week. She is a very pleasant lady to meet, and we wish her success in her work.

Mr. and Mrs. Acton are the proud parents of a son born to them one week ago at the Liberal hospital. Mr. Acton is a son-in-law of E. S. Durham of Tyrone and runs the bakery here.

LINCOLN

"We are not enemies, but friends,
We must not be enemies."
—Lincoln.

SB-2 debated on "Resolved that the government must have political parties." Those for political parties won.

The girls, in the arithmetic race, are still ahead.

Those absent on account of sickness the past week are: Cecil Harrell, Melvin Sexton, Kermit Hill, Everett Miller, Vernon Humble, Lester Robinson, Wilda Davis, Opal Fuller, Louise Huddleston, Nadine Ford, Franz Barrell, Harry Wooten, Harry Malone, Stella Mae Stout, Leota Degarmo, Helen Boydston, Marguerite Logue, Alwayne Ford.

Cecil Harrell, a pupil in 8A has been operated on at the Mercy hospital for appendicitis. We are glad to hear he is doing nicely.

The pupils of the Junior High School wish to extend their sincere sympathy to Opal Fuller whose father died last week.

Hazel Smith returned to school, after being absent for a week on account of having trouble with her foot.

Dorothy Wilson entered 7B-1 class of Junior High School Monday.

Old Lincoln is old and rusty.
But she is still good and trusty.

And since I'm just a little chap,

As most folks can see,
I'm always happiest

While on my daddy's knee.

Last week the 8A class was selecting class colors. One of the boys suggested green, but it was decided two shades of green would not go well together.

Vice Versa

We have all heard of cross questions and foolish answers, but it was somewhat turned around in Agriculture class last week when there were foolish questions and cross answers.

Vernon Humble has a new pair of shoes. They are number twos—two cowhides to one shoe.

Mrs. Pitts: Harlan, you are not writing with muscular movement. You're using your fingers."

Harlan: "Well, I can't write with my feet."

Teacher to Robert: "What is a vacuum?"

Robert: "I don't know, but you have one."

Johnny: "Why are you skating with your football suit on?"

Bill: "I am just learning how."

There is a grass widow quite proper, Who formerly married A. Hopper, But when they got a divorce, As a matter of course, The grass widow's now a Grass-Hopper.

C. O. Davis arrived Monday from Pratt where he has been on a short business visit.

Mrs. L. K. Orr went to the farm near Forgan Friday after spending several weeks with her daughter, Miss Emma R. Jaquins.

Ed Ross of Floris marketed 315 pounds of Leghorn hens at the Liberal Produce Company Monday. At 14 cents per pound this netted him a nice little check. Mr. Ross says he realizes more from Leghorns, from egg production, and is willing to take less on the hens than raise larger fowls. Egg production from the Leghorns nets more than from heavy fowls, if one keeps track of eggs sold, even in taking a few cents less on light hens against the heavier ones.

THE BETTER WAY TO HEALTH

Health Talk No. 6

The human body is often compared to an electrical machine; its many parts receiving the "power" to do their work from the "dynamo" in the brain.

As in all electrical machines there must be two wires, one conveying power to the parts, and one completing the circuit; so in the human machine, there are two kinds of nerves, one carrying mental impulses (power) to the parts, the other carrying vibrations to the brain and completing the circuit.

Break the circuit in the electric machine and the machinery stops. Decrease the amount of power passing over the circuit, and the work is lessened. Break the circuit in the human machine, and the organ stops work—becomes dead; decrease the amount of power passing over the circuit, and the organ itself becomes diseased.

As Chiropractors we are concerned with keeping all parts of the human machine supplied with full power to do their work. If you are sick in any way let us examine your spine and explain to you just how the "power" may be shut off or decreased by misaligned vertebrae. Consultation and spinal analysis free.
